

About Aurora

Aurora Consulting is a leading edge IT company specialising in Java, Oracle, Cognos and Open technology. Our company was formed out of a desire to provide exceptional levels of customer satisfaction and excellent value for money. By combining extensive business experience and technical expertise, Aurora is uniquely positioned to assist our customers with their information technology needs.

Our Experience

Many Aurora Consultants have previously worked for large and reputable IT consulting companies, and have extensive experience with a wide range of Java, Oracle, Cognos and other tools. In recognition of Aurora's exceptional experience in these areas, Aurora was awarded Certified Solution Partner by Oracle Corporation in February 2000; and awarded Premier Solution Provider by Cognos in September 2001. Aurora Consultants have developed countless business solutions that are exemplary in their respective industries. Aurora enjoys a superb track record, and draws on this invaluable knowledge to enable the best practices and time-proven solutions to be part of our customers' implementation. In addition to our core business activities, Aurora Consultants frequently present at international and regional events such as Oracle Open World and User Group Conferences.
